

BHAGYA VARSHINI DANGETI

+91-6305093242 | bhagyavarshini09@gmail.com | Rajahmundry, Andhra Pradesh | [LinkedIn](#) | [GitHub](#) | [Hackerrank](#)

PROFESSIONAL SUMMARY

Computer Science graduate with a strong foundation in Python, SQL, Web Development, Data Analysis, and Machine Learning. Interested in building creative web applications, AI/ML projects, and interactive dashboards, with strong problem-solving and analytical abilities.

EDUCATION

Bachelor of Technology- Computer Science and Engineering	2022 - 2026
Rajamahendri Institute of Engineering and Technology CGPA: 8.30	
Intermediate - MPC	2020 - 2022
Pragati Junior College Percentage: 92%	
SSC	2019 - 2020
Akshara Sri Smart School Percentage: 96.5%	

TECHNICAL SKILLS

Languages: Python, C

Web Technologies & Database: HTML, CSS, JavaScript, SQL

Data Analytics & Visualization: Microsoft Excel, Power BI

Concepts: OOPS, DBMS

AI/ML: ML Basics, Pandas, Matplotlib, scikit-Learn, TensorFlow

Tools & Platforms: Git, GitHub, VS Code, MS Office

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern

Talent Trek – Bangalore, India. | May 2025 - July 2025

- Developed and optimized machine learning models using Python and Tensor Flow on real-world datasets
- Performed data preprocessing, model training, testing, and hyper parameter tuning for improved accuracy

Front End Developer Intern

Karthikeya Software Solutions – Tirupati, India | May 2024 – July 2024

- Developed responsive and interactive web pages using HTML, CSS, and JavaScript
- Improved website design, functionality, and user experience through responsive and interactive UI designs.

PROJECTS

Optimization of Insurance Claim Cost Prediction | Python, Machine Learning, Pandas, SK-learn

- Developed a machine learning-based insurance claim cost prediction system using Python and regression techniques for accurate cost estimation and claim analysis
- Improved prediction accuracy by applying data preprocessing, feature optimization, and regression models

Traffic Sign Detection System | Python, TensorFlow, Open CV

- Developed a CNN-based traffic sign classification model using the GTSRB dataset with image preprocessing techniques for accurate sign recognition
- Implemented real-time traffic sign detection with bounding boxes, traffic labels, confidence score

Weather Forecast Application | HTML, CSS, JavaScript, OpenWeatherMap API

- Developed a weather application providing real-time weather updates using API integration
- Improved user experience with responsive design, live weather updates, temperature toggle, and 5-day forecast

CERTIFICATIONS

- Python certification – **GUVI & IITM**
- Data Analytics – **DELOITTE**
- Artificial intelligence concepts – **NPTEL**
- Professional skills certification – **TCS ION**
- Programming in python – **SWAYAM(CEC)**
